

Wyoming Safety Consultants, LLC

Making Safety and Training Meaningful

Quality Safety & Health Compliance Inspections and Safety Training For Your Changing World!

Say "Hello" To SAFETY!

First Let us introduce ourselves we are **Wyoming Safety Consultants, LLC** and we would like to say "Hello" to the local Rock Springs and surrounding areas.

How your company's Safety Programs and Operations?

In this time of financial crisis that we all are experiencing, **now is not the time to cut back on your safety training** programs in fact, while we have a chance to catch our

breath, this is the opportune time to updated or establish all your necessary safety and health training requirements.

In the past few years we have all been so extremely busy and more than likely you have had to put off on some of that training that you needed to get accomplished. Well, now is the time to get caught up!

Wyoming Safety Consultants offers a variety of Safety Training Solutions to help meet your company's specific training needs.

Imaging yourself on a frozen lake and you needed to find the safest path to shore. Around you were signs warning you of thin ice, however, there is a safe path outlined for you,

Will you take that safe path or would you chance venturing too close to the thin ice?

OSHA requirements are often, in reality, minimum safe standards in which company's are requires to operate. Is your company's operations in accordance with OSHA's requirements?

If your answer is "I think so", then you are not 100% sure. Think means you do not know!

We want to help ensure that you and your employees stay clear of the thin ice of **non-compliance**.

We offer on sight Health and Safety Compliance Inspections and we can also help create specific training for your unique work environment! Let us go to work for you! You'll be glad you did!

Where Does Your Company Stand?

OSHA's 2014 TOP TEN Most Frequently Cited Violations

for Fiscal 2014 (Oct. 1, 2013, to Sept. 30, 2014)

- | | |
|------------------------------|--------------------------------|
| 1. Fall Protection (C) | 6. Lock-Out/Tag-Out |
| 2. Hazard Communication | 7. Ladders (C) |
| 3. Scaffolding (C) | 8. Electrical: Wiring |
| 4. Respiratory Protection | 9. Machine Guarding |
